

InheritanceRPC_Project.IOperation

```
classDiagram
    class IOperation
    class BinaryOperation
    class UnaryOperation
    BinaryOperation --|> IOperation
    UnaryOperation --|> IOperation
```

The diagram illustrates a class hierarchy. At the top is the base class 'InheritanceRPC_Project.IOperation'. Below it are two subclasses: 'InheritanceRPC_Project.BinaryOperation' on the left and 'InheritanceRPC_Project.UnaryOperation' on the right. A horizontal line connects the two subclasses, with a vertical line extending upwards from its center to an arrowhead pointing at the base class, indicating that both subclasses inherit from the base class.

InheritanceRPC_Project.BinaryOperation

InheritanceRPC_Project.UnaryOperation
